Use case UC01 Register as a Rookie (Level C)

Description

Anyone wishes to register to the system as a Rookie. He or she select the option in the main menu and fills the form with his or her information.

Access

Not authenticated: Main Menu -> Register -> As a Rookie.

Tests

Test 01	
Description	Left the form empty and press the save button.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>Works as expected.</i>
Notes	

Test 02	
Description	Properly fill the form but do not accept the terms of service and press the save button
Expected	The system must show an error next to the checkbox.
Outcome	<i>When used in spanish, the error message for the terms and services is displayed in english.</i>
Notes	

Test 03	
Description	Properly fill the form and press the save button. Then log in as the new user.
Expected	The system must register the new user and he or she must be able to log in.
Outcome	<i>The emails with an "alias <email>" pattern, like "alias <user@gmail.com>" aren't considered valid. Also, they aren't considered valid phone numbers with patterns "+CN(AN)PN" or "+CNPN," like "+231233456" or "+23(123)1233456". It also lacks credit card's data fields like the expiration month and year and the cvc.</i>
Notes	

Use case UC02 Register as a Company (Level C)

Description

Anyone wishes to register to the system as a Company. He or she select the option in the main menu and fills the form with his or her information.

Access

Not authenticated: Main Menu -> Register -> As a Company.

Tests

Test 03	
Description	Left the form empty and press the save button.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>Works as expected.</i>
Notes	

Test 04	
Description	Properly fill the form but do not accept the terms of service and press the save button
Expected	The system must show an error next to the checkbox.
Outcome	<i>When used in spanish, the error message for the terms and services is displayed in english.</i>
Notes	

Test 05	
Description	Properly fill the form and press the save button. Then log in as the new user.
Expected	The system must register the new user and he or she must be able to log in.
Outcome	<i>The emails with an "alias <email>" pattern, like "alias <user@gmail.com>" aren't considered valid. Also, they aren't considered valid phone numbers with patterns "+CN(AN)PN" or "+CNPn," like "+231233456" or "+23(123)1233456". It also lacks credit card's data fields like the expiration month and year and the cvc.</i>
Notes	

Use case UC03 Browse Company List (Level C)

Description

Anyone wishes to list the companies available in the system and navigate. He or she select the option in the main menu.

Access

Not authenticated: Main Menu -> Companies -> List

Tests

Test 06	
Description	Access to the Companies list
Expected	The system must show all the companies in a table and a link to their corresponding positions.
Outcome	<i>The information is displayed correctly.</i>
Notes	

Use case UC04 Display the company's positions (Level C)

Description

Anyone wishes to display the company's positions. He or she select the option in the main menu and then follow the link "Positions"

Access

Not authenticated: Main Menu -> Companies -> List -> Positions

Tests

Test 07	
Description	Access to the Companies published positions.
Expected	The system must show all the companies in a table and a link to their corresponding positions.
Outcome	<i>Being a user not logged into the system I can see and browse the posts and companies</i>
Notes	

Use case UC05 Company Edit Profile Data (Level C)

Description

The companies can edit their personal data. Select the option "Profile" in the main menu and then follow the link "Edit profile"

Access

Logged as a Company: Main Menu -> Profile -> Edit profile

Tests

Test 09	
Description	Check the information shown in the form
Expected	The correct company data must be shown in the form fields
Outcome	<i>The information is correctly shown</i>
Notes	

Test 08	
Description	Left the name form field empty and press the save button.
Expected	The system must show an error next to the name field.
Outcome	<i>An error message is showed that alerts the user the name field must be filled</i>
Notes	

Test 010	
Description	Properly fill the name form field and press the save button
Expected	The system must save the new company profile data. It is possible than an error about the phone number is shown in an alert window, close and go on.
Outcome	<i>The emails with an "alias <email>" pattern, like "alias <user@gmail.com>" aren't considered valid. Also, they aren't considered valid phone numbers with patterns "+CN(AN)PN" or "+CNPN," like "+231233456" or "+23(123)1233456". It also lacks credit card's data fields like the expiration month and year and the cvc.</i>
Notes	

Use case UC06 Rookie Edit Profile Data (Level C)

Description

The rookies can edit their personal data. Select the option "Profile" in the main menu and then follow the link "Edit profile"

Access

Logged as a Rookies: Main Menu -> Profile -> Edit profile

Tests

Test 011	
Description	Check the information shown in the form
Expected	The correct company data must be shown in the form fields
Outcome	<i>The information is shown correctly.</i>
Notes	

Test 012	
Description	Left the name form field empty and press the save button.
Expected	The system must show an error next to the name field.
Outcome	<i>An error message is showed that alerts the user the name field must be filled</i>
Notes

Third curricula	0	0	0	View	Delete														
Notes	-																		

Use case UC29 Update curricula

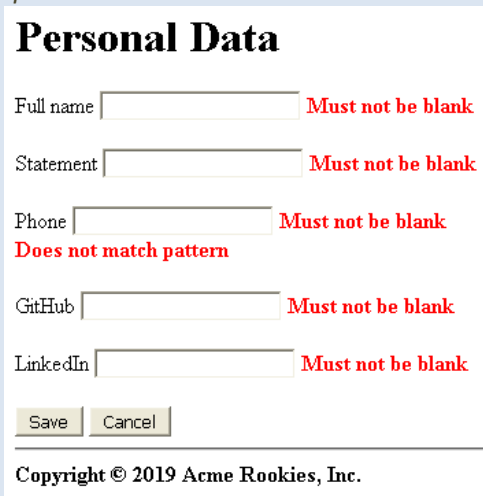

Description

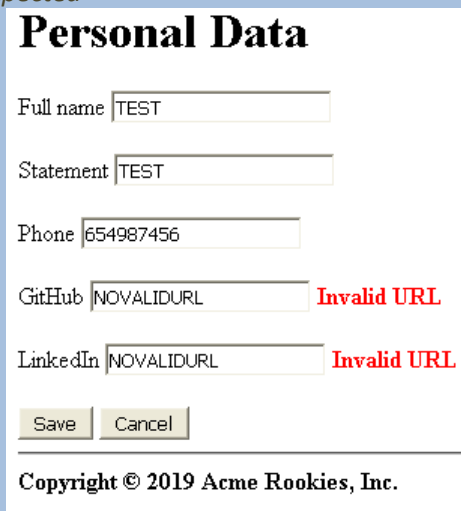

A rookie user wishes to update one of his or her curriculas, he or she press the “Curricula” button located in the main menu, then select the “view” link. Finally, he or she make the changes.

Access

Logged as a provider: Main Menu -> Curricula -> List -> View.

Tests

Test 001	
Description	Access to the personal data form (“edit personal data” link below the table) and press with all the inputs empty.
Expected	The system must show an error next to empty fields.
Outcome	<i>The result was the expected</i>  <p>The screenshot shows a form titled "Personal Data" with the following fields and error messages: Full name (Must not be blank), Statement (Must not be blank), Phone (Must not be blank, Does not match pattern), GitHub (Must not be blank), and LinkedIn (Must not be blank). There are "Save" and "Cancel" buttons at the bottom. The footer reads "Copyright © 2019 Acme Rookies, Inc."</p>
Notes	-

Test 002	
Description	Insert n invalid URL in the GitHub and LinkedIn fields.
Expected	The system must show an error next to the final mode field.
Outcome	<i>The result was the expected</i>  <p>The screenshot shows the same "Personal Data" form, but with "TEST" entered in the Full name and Statement fields, and "654987456" in the Phone field. The GitHub and LinkedIn fields contain "NOVALIDURL" and both show the error message "Invalid URL". The "Save" and "Cancel" buttons are at the bottom, and the footer reads "Copyright © 2019 Acme Rookies, Inc."</p>
Notes	-

Test 003	
Description	Properly fill the personal data form and save.
Expected	The system must update the personal data of the curricula.

Outcome

The result was the expected

Personal data

Full name

Statement

GitHub

LinkedIn

Use case UC31 Rookie update finder

Description

A rookie user wants to update his or her finder's search criteria. He or she goes to the finder configuration from the main menu and makes the changes. Finally, he or she press "Search positions" and the finder is updated.

Access

Logged as an auditor: Main Menu -> Finder -> Configure.

Tests

Test 001	
Description	Access to the finder configuration, change the several times and check that the results matches the search criteria.
Expected	The system must show only the positions that match the search criteria of the finder.
Outcome	<i>The test runs well. But there are two minor mistakes:</i> <ol style="list-style-type: none">1. Doesn't search by company name2. He lets me put past dates.
Notes	-

Test 002	
Description	Access to the finder configuration, press the "clear" button while the search criteria is not empty.
Expected	The system must change all the finder's options to null and the results must be all the positions.
Outcome	<i>The test runs well.</i>
Notes	

Use case UC32 Rookie clear finder

Description

A rookie user wants to clear his or her finder's search criteria. He or she goes to the finder configuration from the main menu and press "Clear".

Access

Logged as an auditor: Main Menu -> Finder -> Configure -> Clear.

Tests

Test 001	
Description	Access to the finder configuration, press the "clear" button.
Expected	The system must change all the finder's options to null and the results must be all the positions.
Outcome	<i>The test runs well.. This test is repeated in the previous section.</i>
Notes	-

Use case UC33 List social profiles

Description

A user wishes to list his or her social profiles, he or she selects the “Social profile” button in the main menu dropdown.

Access

Logged as a company: Main Menu -> Profile -> Social profiles.

Tests

Test 001	
Description	Logged as any user, access to the list of social profiles, check that all the user's social profiles appear there.
Expected	The system must list all the social profiles registered by the user.
Outcome	<i>The system shows only my social profiles, I suppose this was what you want.</i>
Notes	The requirement specifies that any registered user must be able to list his or her social profiles. So only his or her social profiles are shown. (Reaction to the outcome)

Use case UC34 Create Social profile

Description

A user wishes to register a social profile, he or she press the “Social profiles” button located in the navigation bar. Then select the “Create social profile” link and fills the form. Finally, he or she press the “save” button.

Access

Logged as a provider: Main Menu -> Profile -> Social profiles -> Create social profile.

Tests

Test 001	
Description	Press save while all fields are empty.
Expected	The system must show an error next to all fields.
Outcome	<i>Correct</i>
Notes	-

Test 002	
Description	Insert an invalid URL in the link input and save.
Expected	The system must show an error next to the link field.
Outcome	<i>Correct</i>
Notes	-

Test 003	
Description	Properly fill the form and press save.
Expected	The system must save the new social profile and it must appear in the list.
Outcome	<i>Correct</i>
Notes	-

Use case UC35 Update social profile

Description

A user wishes to update one of his or her social profiles, he or she press the “Social profiles” button located in the main menu, then select the “edit” link. Finally, he or she fills the form and press the “save” button.

Access

Logged as a provider: Main Menu -> Profile -> Social profiles -> Edit.

Tests

Test 001	
Description	Press save while all fields are empty.
Expected	The system must show an error next to all fields.
Outcome	<i>Correct</i>
Notes	-

Test 002	
Description	Insert an invalid URL in the link input and save.
Expected	The system must show an error next to the link field.
Outcome	<i>Correct</i>
Notes	-

Test 003	
Description	Properly fill the form and press save.
Expected	The system must update the new social profile and it must appear changed in the list.
Outcome	<i>Correct</i>
Notes	-

Use case UC36 Delete Social profile

Description

A user wishes to delete one of his or her social profiles, he or she press the “Social profiles” button located in the main menu, then select the “delete” link.

Access

Logged as a provider: Main Menu -> Profile -> Social profiles -> Delete.

Tests

Test 001	
Description	Delete some social profiles of different users.
Expected	The system must delete the selected social profiles.
Outcome	<i>Correct</i>
Notes	-

Use case UC37 Admin Create Admin Account

Description

The system administrator can create user accounts for new administrators.

Access

Logged as an administrator:

Main Menu -> Administrator -> Admin list -> Create Administrator

Tests

Test 026	
Description	Left the form empty and save.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>Shows us the form with the validation errors</i> <div>Create Administrator Username <input type="text"/> Size must be from 5 to 32 Password <input type="text"/> Size must be from 5 to 32 Name <input type="text"/> Must not be blank Surname <input type="text"/> Must not be blank Vat <input type="text"/> Cannot be null Card Number <input type="text"/> Must not be blank Photo <input type="text"/> Email <input type="text"/> Must not be blank Phone <input type="text"/> Address <input type="text"/> <input type="button" value="Save"/> <input type="button" value="Cancel"/></div>
Notes	Correct

Test 027																						
Description	Properly fill the form and save it. Log in as the new admin.																					
Expected	The system must save the new administrator account and he or she must be able to log in.																					
Outcome	<p><i>We create the admintest and we can check that it is added to the list of administrators</i></p> <div><h3>Administrators List</h3><div>2 items found, displaying all items. 1</div><table><tr><th>Name</th><th>Surname</th><th>Vat</th><th>Card Number</th><th>Email</th><th>Phone</th><th>Address</th></tr><tr><td>adrian</td><td>surname1</td><td>1</td><td>378721273855309</td><td>adrian@gmail.com</td><td>+34656256697</td><td>adrian 18</td></tr><tr><td>admintest</td><td>admintest</td><td>123</td><td>1111222233334444</td><td>admintest@gmail.com</td><td>+34123</td><td>aa</td></tr></table>Create Administrator</div>	Name	Surname	Vat	Card Number	Email	Phone	Address	adrian	surname1	1	378721273855309	adrian@gmail.com	+34656256697	adrian 18	admintest	admintest	123	1111222233334444	admintest@gmail.com	+34123	aa

Notes	Correct																					

Use case UC38 Authenticated user list Messages

Description

An authenticated user can list his or her messages.

Access

Logged authenticated user: Main Menu -> Profile -> Messages

Tests

Test 026	
Description	Logged as all users in different sessions, access to the list of messages.
Expected	The system must show a list containing all the messages of the user.
Outcome	<i>The messages are properly listed</i>
Notes	

Test 027	
Description	Sorting table by messages tag
Expected	The user can sort the table by the message tag.
Outcome	<i>How to sort messages by tag is not found</i>
Notes	

Test 028	
Description	Create Message link
Expected	The "Create Message" link of your listings is shown.
Outcome	<i>The create message link works perfectly</i>
Notes	

Test 029	
Description	Display Message
Expected	The display link of your listings is shown.
Outcome	<i>The display link work fine.</i>
Notes	

Use case UC39 Authenticated user display Message

Description

An authenticated user wishes to display a message from his or her messages list.

Access

Logged authenticated user: Main Menu -> Profile -> Messages -> Display

Tests

Test 030	
Description	Access to the messages list and press Display link.
Expected	The system must display the user's message.
Outcome	<i>When a message with multiple receptors is listed, none of its receptors is shown</i>
Notes	

Test 031	
Description	Delete link
Expected	Delete link is shown
Outcome	<i>It works correctly</i>
Notes	

Test 032	
Description	go Back button.
Expected	Go back button is shown.
Outcome	<i>The button works correctly</i>
Notes	

Use case UC40 Authenticated user send a Message

Description

A user authenticated can create and send a Message.

Access

Logged authenticated user:

Main Menu -> Profile -> Messages -> Create Message

Tests

Test 033	
Description	Left the form empty and save.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>The correct message errors are displayed</i>
Notes	

Test 034	
Description	Press Cancel Button.
Expected	The system must display the user's messages list.
Outcome	<i>The cancel button works as expected</i>
Notes	

Test 035	
Description	Properly fill the form and send it.
Expected	The system must save the new message and it must be shown in the user's messages list page.
Outcome	<i>The message is properly saved and the list display the send message</i>
Notes	

Use case UC41 Authenticated user delete a Message

Description

A user authenticated can delete a Message from his or her messages list.

Access

Logged authenticated user:

Main Menu -> Profile -> Messages -> Display -> Delete

Tests

Test 036	
Description	Logged as an authenticated user, delete a message from his or her messages list. First time
Expected	The system must save the message with a "Deleted" tag.
Outcome	<i>The delete tag is added to the message</i>
Notes	

Test 037	
Description	Logged as an authenticated user, delete a message from his or her messages list. Second time
Expected	The system must delete the message from the database, the deleted message must not be in the user messages list.
Outcome	<i>The deleted message isn't shown to the user who deleted it but it's not actually deleted from the database.</i>
Notes	When a user deletes a message, for example, the sender, it is removed from his or her pool, but the receiver still has it in his or her pool. (Outcome explanation)

Use case UC42 Administrator Broadcast a Message

Description

The system administrator can create and send a broadcast message to all system users.

Access

Logged as an administrator:

Main Menu -> Administrator -> Broadcast a Message

Tests

Test 038	
Description	Left the form empty and save.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>The correct message errors are displayed</i>
Notes	

Test 039	
Description	Press Cancel Button.
Expected	The system must display the user's messages list.
Outcome	<i>The cancel button works as expected</i>
Notes	

Test 040	
Description	Properly fill the form and send it.
Expected	The system must save the new message and it must be shown in the user's messages list page with a "System" tag
Outcome	<i>The message is properly saved and the list display the sended message</i>
Notes	

Use case UC43 Admin Spammer Procedure

Description

The system administrator can run a procedure to flags the actors of the system as spammers or not spammers.

Access

Logged as an administrator:

Main Menu -> Administrator -> Spammers list.

Tests

Test 040																					
Description	Follow the link “Update Spammers”.																				
Expected	The system must show an updated list of spammers users																				
Outcome	<i>Updated with actors who send messages with spammers words</i>																				
	Spammers actors list																				
	<div>3 items found, displaying all items.</div> <div>1</div> <table><tr><th>Name</th><th>Surname</th><th>Email</th><th>Ban</th><th>Unban</th></tr><tr><td>provider1</td><td>provider1</td><td>provider1@gmail.com</td><td>Ban</td><td></td></tr><tr><td>company1</td><td>company1</td><td>company1@gmail.com</td><td>Ban</td><td></td></tr><tr><td>rookie2</td><td>rookie2</td><td>rookie2@gmail.com</td><td>Ban</td><td></td></tr></table>	Name	Surname	Email	Ban	Unban	provider1	provider1	provider1@gmail.com	Ban		company1	company1	company1@gmail.com	Ban		rookie2	rookie2	rookie2@gmail.com	Ban	
	Name	Surname	Email	Ban	Unban																
provider1	provider1	provider1@gmail.com	Ban																		
company1	company1	company1@gmail.com	Ban																		
rookie2	rookie2	rookie2@gmail.com	Ban																		
	Update Spammers																				
Notes	We logged in as provider1 and sent a message with spam words and when updating the spammers appeared in the list.																				

Use case UC44 Admin ban an actor

Description

The system administrator can ban an actor with the spammer flag.

Access

Logged as an administrator:

Main Menu -> Administrator -> Spammers list.

Tests

Test 041	
Description	Follow the link "Ban".
Expected	The system must show an updated list of spammers users, with the option "Unban" in the user's unban column
Outcome	<i>The system show me the spammers actors and if they are banned or not , and if i update the spammers list appears new actors</i>
Notes	

Use case UC45 Admin unban an actor

Description

The system administrator can unban an actor previously banned.

Access

Logged as an administrator:

Main Menu -> Administrator -> Spammers list.

Tests

Test 042	
Description	Follow the link "Unban".
Expected	The system must show an updated list of spammers users, with the option "Unban" in the user's unban column
Outcome	<i>The system show me the spammers actors and if they are banned or not , and if i update the spammers list appears new actors, if i ban a actor the boton changes</i>
Notes	The user must be banned previously

Use case UC46 Self-assign position to audit

Description

An auditor user wishes to be able to audit a position, he or she list the positions and, if that position is not assigned to any auditor, he or she hits the “Self-assign” button.

Access

Logged as an auditor: Main Menu -> Positions -> Self-assign button in auditor column.

Tests

Test 001																										
Description	Logged as an auditor, access to the list of positions, self-assign the last position.																									
Expected	The system must refresh the view and in the place of the pressed button must be the name of the user logged in.																									
Outcome	<div>If i assign as auditor1 a position it changes and nobody can self assign more this positions</div> <div><table><tr><td></td><td>Salary</td><td>Company</td><td>Display</td><td>Auditor</td></tr><tr><td>h3</td><td>20000.0</td><td>company1 Co., Inc.</td><td>Display</td><td>auditor1</td></tr><tr><td>h3</td><td>34000.0</td><td>company1 Co., Inc.</td><td>Display</td><td>auditor1</td></tr><tr><td>h3</td><td>17000.0</td><td>company2 Co., Inc.</td><td>Display</td><td>auditor1</td></tr><tr><td></td><td>1.0</td><td>company1 Co., Inc.</td><td>Display</td><td>Self-Assign</td></tr></table></div>		Salary	Company	Display	Auditor	h3	20000.0	company1 Co., Inc. Notes																										

Use case UC47 List audits

Description

An auditor user wishes to list all his or her audits, he or she press the “audits” button located in the navigation bar to display the list.

Access

Logged as an auditor: Main Menu -> Audits.

Tests

Test 002																			
Description	Logged as an auditor, access to the list of audits.																		
Expected	The system must show a list containing all the audits of the user.																		
Outcome	<p>For auditor 1 and auditor 2 the same list below is shown:</p> <table><tr><th>Moment</th><th>Text</th><th>Score</th><th>View</th><th>Edit</th><th>Delete</th></tr><tr><td>18/04/2019</td><td>This position is not correct 'un treh'</td><td>5</td><td>View</td><td>Final</td><td>Final</td></tr><tr><td>18/04/2019</td><td>I have determined that I do not understand what is an audit</td><td>5</td><td>View</td><td>Edit</td><td>Delete</td></tr></table>	Moment	Text	Score	View	Edit	Delete	18/04/2019	This position is not correct 'un treh'	5	View	Final	Final	18/04/2019	I have determined that I do not understand what is an audit	5	View	Edit	Delete
Moment	Text	Score	View	Edit	Delete														
18/04/2019	This position is not correct 'un treh'	5	View	Final	Final														
18/04/2019	I have determined that I do not understand what is an audit	5	View	Edit	Delete														
Notes	This is a bug because instead of showing the audit of the logged auditor, shows all that there is in the System.																		

Use case UC48 Show audits

Description

An auditor user wishes to show one of his or her audits, he or she press the “audits” button located in the navigation bar to display the audits and then select the “view” button of the one he or she wants to view.

Access

Logged as an auditor: Main Menu -> Audits -> View.

Tests

Test 003																									
Description	Logged as an auditor, access to the list of audits, then press the view link.																								
Expected	The system must show all the information of the audit in a table and the information of the position in other table below.																								
Outcome	<div>Clicking on view displays the information corresponding to the audit.</div> <div>Audit information<table><tr><th>Moment</th><th>Text</th><th>Score</th></tr><tr><td>18/04/2019</td><td>This position is not correct: 'un treh'</td><td>5</td></tr></table><div>Position<table><tr><th>Ticker</th><th>Title</th><th>Description</th><th>Deadline</th><th>Profile</th><th>Skills</th><th>Technologies</th><th>Salary</th><th>Company</th></tr><tr><td>comp-1234</td><td>Programador en javascript</td><td>Se busca programador en javascript</td><td>12/06/2019</td><td>Programador</td><td>skill1, skill2, skill3</td><td>tech1, tech2, tech3</td><td>20000.0</td><td>company1 Co., Inc.</td></tr></table></div></div>	Moment	Text	Score	18/04/2019	This position is not correct: 'un treh'	5	Ticker	Title	Description	Deadline	Profile	Skills	Technologies	Salary	Company	comp-1234	Programador en javascript	Se busca programador en javascript	12/06/2019	Programador	skill1, skill2, skill3	tech1, tech2, tech3	20000.0	company1 Co., Inc.

18/04/2019	This position is not correct: 'an treh'	5	View	Final	Final																				
18/04/2019	I have determined that I do not understand what is an audit	5	View	Edit	Delete																				
10/05/2019	prueba	-5	View	Edit	Delete																				
Notes																									

Test 006

Description Fill the score field with a number greater than 10.

Expected The system must show an error next to the score field.

Outcome The following error message is displayed in the score field.

Edit audit

Text

Score **Too large (max = 10)**

Final

Notes

Use case UC50 Update audit

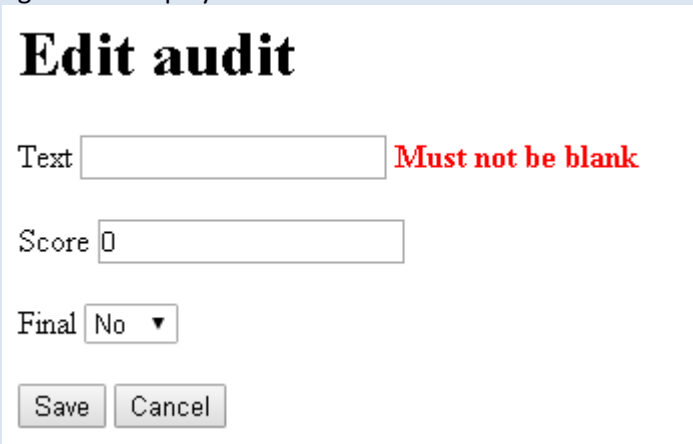

Description

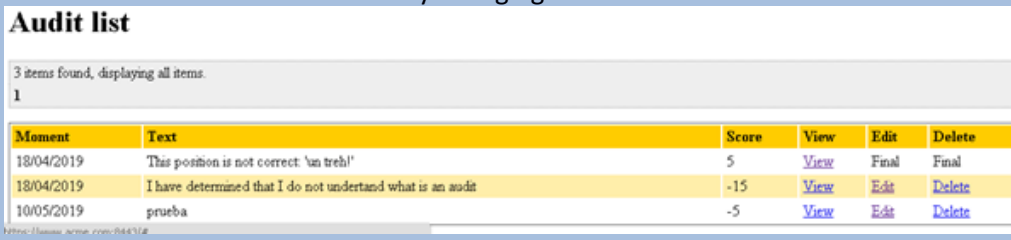

An auditor user wishes to update one of his or her audits, he or she press the “audits” button located in the navigation bar to display the audits, then select the “edit” link in the audit table. Finally, he or she fill the form and press the “save” button.

Access

Logged as an auditor: Main Menu -> Audits -> (Audit list) Edit.

Tests

Test 007	
Description	Press save while any field is empty.
Expected	The system must show an error next to the field.
Outcome	<p>The following error is displayed</p> 
Notes	

Test 008	
Description	Fill the score field with a negative number.
Expected	The system must show an error next to the score field.
Outcome	<p>the second audit could be edited by changing the score to -15</p> 
Notes	

Test 009

Description

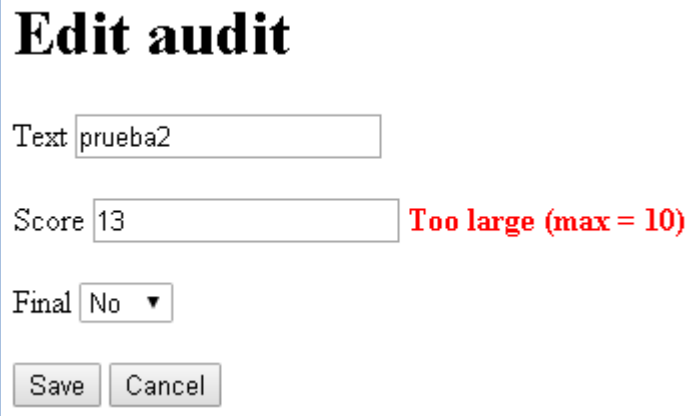

Fill the score field with a number greater than 10.

Expected

The system must show an error next to the score field.

Outcome

The following error is displayed

Edit audit

Text

Score **Too large (max = 10)**

Final

Notes

Use case UC51 Delete audit

Description

An auditor user wishes to delete one of his or her audits, he or she press the “audits” button located in the navigation bar to display the audits, then select the “delete” link in the audit table.

Access

Logged as an auditor: Main Menu -> Audits -> (Audit list) Delete.

Tests

Test 010	
Description	Logged as audit, delete the audit that is in draft mode.
Expected	The system must delete the audit from the database, the deleted audit must not be in the audit list.
Outcome	The audit is deleted from the list of audits.
Notes	The user “auditor1” has an audit in draft mode that can be deleted easily.

Use case UC52 Browse providers list

Description

Anyone wishes to browse the list of providers stored in the system. He or she select “Providers” in the navigation bar and then he or she press the “Items” link to view the Items created by one provider.

Access

Logged or not: Main Menu -> Providers -> List.

Tests

Test 011	
Description	Access to the providers list and display the items created by any.
Expected	The system must show a list with the items created by the selected provider.
Outcome	<i>The system works as expected</i>
Notes	

Use case UC53 Browse item list

Description

Anyone wishes to browse the list of items stored in the system. He or she select "Items" in the navigation bar and then he or she press the provider's name link to display his or her information.

Access

Logged or not: Main Menu -> Items.

Tests

Test 012	
Description	Access to the items list and display the provider of any.
Expected	The system must display the information of the selected provider.
Outcome	<i>The test runs well.</i>
Notes	

Use case UC54 Register as a provider

Description

Anyone wishes to register to the system as a provider. He or she select the option in the main menu and fills the form with his or her information.

Access

Not authenticated: Main Menu -> Register -> As a provider.

Tests

Test 013	
Description	Left the form empty and save.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>The system works as expected</i>
Notes	

Test 014	
Description	Properly fill the form but do not accept the terms of service.
Expected	The system must show an error next to the checkbox.
Outcome	<i>When used in spanish, the error message for the terms and services is displayed in english.</i>
Notes	

Test 015	
Description	Properly fill the form and then log in as the new user.
Expected	The system must register the new user and he or she must be able to log in.
Outcome	<i>The emails with an "alias <email>" pattern, like "alias <user@gmail.com>" aren't considered valid. Also, they aren't considered valid phone numbers with patterns "+CN(AN)PN" or "+CNPN," like "+231233456" or "+23(123)1233456". It also lacks credit card's data fields like the expiration month and year and the cvc.</i>
Notes	

Use case UC55 Rebranding Procedure

Description

The system administrator can run a procedure to notify the existing users of the rebranding. The system must guarantee that the process is run only once.

Access

Logged as an administrator:

Main Menu -> Administrator -> Rebranding Procedure.

Tests

Test 016	
Description	Follow the link "Notify".
Expected	The system must show this message: "Rebranding already Notify"
Outcome	<i>The notification works as expected</i>
Notes	

Use case UC56 Create Auditor Account

Description

The system administrator can create user accounts for new auditors.

Access

Logged as an administrator:

Main Menu -> Administrator -> Auditor list -> Create Auditor

Tests

Test 017	
Description	Left the form empty and save.
Expected	The system must show an error next to the mandatory fields.
Outcome	<i>The system works as expected.</i>
Notes	

Test 018	
Description	Properly fill the form and save it. Log in as the new user.
Expected	The system must save the new audit account and he or she must be able to log in.
Outcome	<i>The emails with an "alias <email>" pattern, like "alias <user@gmail.com>" aren't considered valid. Also, they aren't considered valid phone numbers with patterns "+CN(AN)PN" or "+CNPN," like "+231233456" or "+23(123)1233456". It also lacks credit card's data fields like the expiration month and year and the cvc.</i>
Notes	

Use case UC57 Compute Audit Score

Description

The system administrator can launch a process to compute an audit score for every company.

Access

Logged as an administrator:

Main Menu -> Administrator -> Company Audit Score.

Tests

Test 019										
Description	Follow the link “Compute Company Audit Score”.									
Expected	In the Company table must be the score or nil.									
Outcome	<div><p><i>The result was the expected</i></p><div><p>Company Audit Scores</p><div><p>2 items found, displaying all items</p><p>1</p><table><tr><th>Commercial Name</th><th>Email</th><th>Score</th></tr><tr><td>company1 Co., Inc.</td><td>company1@gmail.com</td><td>0.0</td></tr><tr><td>company2 Co., Inc.</td><td>company2@gmail.com</td><td>N/A</td></tr></table><p>Compute Company Audit Score</p></div></div></div>	Commercial Name	Email	Score	company1 Co., Inc.	company1@gmail.com	0.0	company2 Co., Inc.	company2@gmail.com	N/A
Commercial Name	Email	Score								
company1 Co., Inc.	company1@gmail.com	0.0								
company2 Co., Inc.	company2@gmail.com	N/A								
Notes										

Use case UC58 Administrator Dashboard

Description

The system administrator can display a dashboard.

Access

Logged as an administrator:

Main Menu -> Administrator -> Dashboard.

Tests

Test 020							
Description							
Expected	You can see the queries 10 to 18 in several tables.						
Outcome	<p>These statistics are empty, they don't show any information.</p> <div><div>11. Audit score of the companies that are registered in the system</div><table><tr><td>Average</td><td>Minimum</td><td>Maximum</td><td>Standard Deviation</td></tr></table><div>12. The companies with the highest audit score</div><table><tr><td>Company</td><td>Score</td></tr></table></div>	Average	Minimum	Maximum	Standard Deviation	Company	Score
Average	Minimum	Maximum	Standard Deviation				
Company	Score						
Notes							

Use case UC59 Provider list Items

Description

An actor authenticated as a Provider list his or her items.

Access

Logged as a Provider:

Main Menu -> Items -> My items

Tests

Test 021	
Description	Access to the items list.
Expected	The system must list the Provider's items.
Outcome	<i>The test runs well.</i>
Notes	

Test 022	
Description	Edit link
Expected	The edit link of your listings is shown.
Outcome	<i>The test runs well..</i>
Notes	

Test 023	
Description	Provider link
Expected	The provider link of your listings is shown.
Outcome	<i>The test does not run well.</i> 1. I can't find that link in the "My Items" list.
Notes	

Test 024	
Description	Display link
Expected	The display link of your listings is shown.
Outcome	<i>The test runs well.</i>
Notes	

Use case UC60 Provider display Items

Description

An actor authenticated as a Provider displays his or her items.

Access

Logged as a Provider:

Main Menu -> Items -> My items -> Display

Tests

Test 025	
Description	Access to the items list and display.
Expected	The system must display the Provider's item list.
Outcome	<i>The test runs well</i>
Notes	

Test 026	
Description	Add Picture link
Expected	The "Add Picture" link is shown
Outcome	<i>The test runs well.</i>
Notes	

Test 027	
Description	goBack button.
Expected	Go back to the Provider list items.
Outcome	<i>The test runs well.</i>
Notes	

Use case UC61 Provider create item

Description

A provider creates one item.

Access

Logged as a Provider:

Main Menu -> Items -> My items -> Create Item

Tests

Test 028	
Description	Press Cancel Button.
Expected	The system must display the Provider's item list.
Outcome	<i>The test runs well</i>
Notes	-

Test 029	
Description	Press save while any field is empty.
Expected	The system must show an error next to the field.
Outcome	<i>The test runs well</i>
Notes	

Test 030	
Description	Fill the link field with an invalid URL.
Expected	The system must show an error " Invalid URL ".
Outcome	<i>The test runs well</i>
Notes	-

Test 031	
Description	Fill all the fields with correct data and press save.
Expected	The system must list the Provider's items with the new item.
Outcome	<i>The test does not run well.</i> <ol style="list-style-type: none">1. When you press "save" you do not save the object. No error, just redirect me to "My Items" and the supposedly created object is not in the list.
Notes	

Use case UC62 Provider Edit Item

Description

A provider user wishes to edit one of his or her audits, he or she press the "ITEM/My items" button located in the navigation bar to display the items, then select the "edit" link in the audit table. Finally, he or she fill the form and press the "save" button.

Access

Logged as a Provider:

Main Menu -> Items -> My items -> Edit

Tests

Test 032	
Description	Review the information that is shown.
Expected	Make sure that the form shows the information that it's expected.
Outcome	<i>The test runs well.</i>
Notes	-

Test 033	
Description	Fill the link field with an invalid URL.
Expected	The system must show an error " Invalid URL ".
Outcome	<i>The test runs well.</i>
Notes	-

Test 034	
Description	Fill all the fields with correct data and press save.
Expected	The system must list the Provider's items with the edited item.
Outcome	<i>The test does not run well.</i> <ol style="list-style-type: none">1. When I edit that object it returns to "My Items" but the changes are not shown.
Notes	

Use case UC63 Provider Delete item

Description

A provider user wishes to delete one of his or her items, he or she press the “ITEMS/My items” button located in the navigation bar to display the audits, then select the “edit” link in the items table and finally press the Delete button.

Access

Logged as a Provider:

Main Menu -> Items -> My items -> Edit -> Delete (button)

Tests

Test 035	
Description	Press the Delete button
Expected	The system must delete the item from the database and return to the Item list page. The deleted item must not be in the audit list.
Outcome	<i>The test does not run well.</i> 1. When I press the "delete" button it returns me to "My items", and the object keeps appearing.
Notes
